For Information - EU ETS: Become a CINEA-expert and evaluate Innovation Fund Projects

Dear Members,

The European Climate, Infrastructure and Environment Executive Agency (CINEA) is the executive agency of the European Commission dealing with the Innovation Fund. CINEA is currently looking for experts to evaluate projects applying for funding from the Innovation Fund.

If any of our members are interested in participating in the assessment of Innovation Fund projects and providing technical expertise on topics ranging from GHG emissions to life cycle assessments of fuels, please visit the website mentioned below. There, you can find more information on how and why to apply to become an expert, as well as details on the overall conditions:

[CINEA: Innovation Fund - Sign up as an Expert](#)

We encourage you to share this new opportunity within your network, to ensure that CINEA has the right persons in its experts pool to evaluate maritime related projects.
